

POLY BAG TOTE

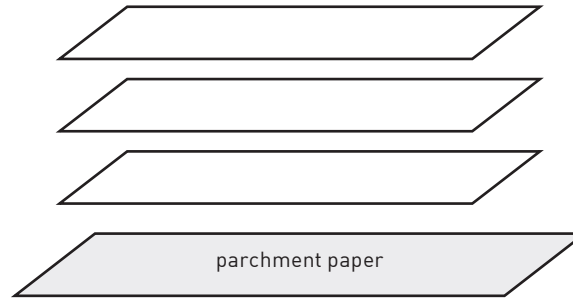

MATERIALS:

- A few plastic bags
- Parchment paper
- Straight edge
- A hot iron
- Scissors
- Tape

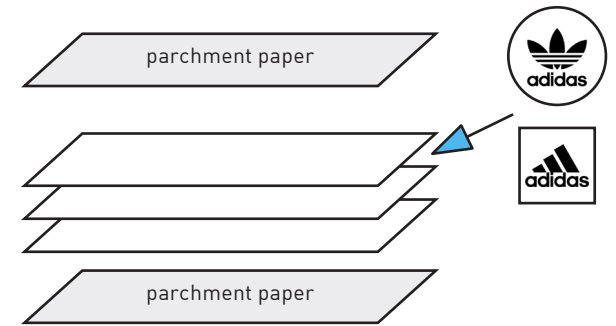

1. Cut open the plastic bags so you have three clear, large pieces.

2. Lay parchment on your work surface, then your plastic bags stacked up.

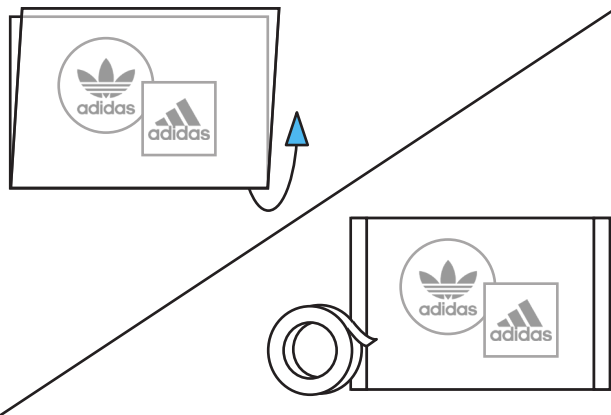

3. Slip the decorations under the top plastic layer, then put parchment on top.

4. On a low setting, iron over the parchment and check frequently.

5. Once it's fused, fold in half inside-out, trim the edges, and tape the long edges to create sides.

6. Turn right-side in. Fold up bottom corners and tape to the sides to create a bottom.
